

# Eight easy steps to building with Beechwood

## 1) Initial Visit

Call in to one of our many display homes open 7 days a week.

## 2) Customise your Home

Work with one of our building and design consultants to customise your home - finalise your colours, plans and layout.

## 3) Contract Signed

Once you have shopped around and chosen the best finance option for you, the contract is signed so Beechwood can start work on your dream home.

## 4) Council approval

We take care of all council approvals - no running around for you.

## 5) Building commenced

The foundations are laid, builders set up on site and we get started on building your new family home.

## 6) Weekly / fortnightly updates

Throughout the building of your home, we keep you up to date on the progress with regular reports and photos.

## 7) House completed

Your dream house is now complete and ready for your final inspection.

## 8) Move in

Here it is. The day when you close on your home and officially make it yours is definitely a day worth celebrating. Now it's time to place the furniture, hang the pictures and say to yourself quietly, "It's nice to be home."
